Building durable growth in a changing market

Letter to Shareholders | Fiscal Year Ended 30 June 2026

Performance snapshot

Field	Value
Revenue	S$2.84B
EBITDA margin	18.6%
Recurring / repeat revenue	93%
Free cash flow	S$184M

Dear Shareholders

Fiscal 2026 was a year of disciplined execution for Northbridge Group. We grew in a market defined by uneven demand, higher expectations for resilience and security, and rapid adoption of artificial intelligence across regulated industries.

Revenue increased 11% year on year to S$2.84 billion, while EBITDA margin expanded 120 basis points to 18.6%.

Three priorities shaped the year

Field	Value
Modernise the core	Simplify the technology estate and move more workloads to cloud-native, observable services.
Grow where trust matters	Focus on regulated financial services, market infrastructure and enterprise workflow automation.
Put AI to work responsibly	Embed governed AI-assisted operations, document intelligence and engineering copilots.

Outlook

Entering FY2027 with confidence and discipline. We expect technology budgets to remain selective and concentrated on platforms that reduce operational risk and improve productivity.

What we will protect

Field	Value
Client trust	Delivery quality
Balance-sheet resilience	Long-term investment discipline

Where we will press

Field	Value
AI-enabled productivity	Regional financial infrastructure
Recurring platform revenue	Priority account growth
